## LET THERE BE LIGHT

Big Bike Parts has unveiled a new 3 1/2-inch LED driving light that it claims offers more than double the illumination of many competitors' models. The new Focus Driving Lights (\$149.95/pair) feature Cree LEDs that create a bright 6000 K light (white with a hint of blue) in a driving light pattern that reaches more than 1,000 feet. They include an 8mm stud for universal mounting applications, and are available in a chrome or satin black visored housing.
